Experience

TLTCSPACE (Beijing, China)

Lead Front-End Developer (August 2014 – May 2016)

- Worked closely with design team on a daily basis to produce high quality, intuitive web page designs.
- Led front-end development team in implementing and deploying web page functionality.
- Conducted code reviews with teammates to ensure clarity and ease of future maintenance.
- Assisted back-end team in structuring and implementing secure databases for products and user information.
- Created internal tools for use by other departments to manage inventory, update banner images, automate image resizing.

MOBIM TECHNOLOGIES CO. (Shanghai, China)

Intern, Mobile Chat App Development (June 2009 – August 2009)

- Researched and compiled North American mobile market data for presentation to aid in mobile chat software development.
- Translated UI and copy material between English and Chinese to break language and cultural barriers during software deployment and marketing.

Interests

- Video and board games
- Learning new technologies
- Badminton, billiards
